Web Technologies : HTML5, CSS3, JavaScript, BOOTSTRAP, MEDIA QUERY

IDE & Tools : Notepad++, VSCode

EXPERIENCE OVERVIEW

- Working as a Web Developer in **Webwheel Technologies, Delhi** from

2021 FEB to Till Date.

ORGANIZATIONAL EXPERIENCE

Project # 1

Type : HolidayMakers

Environment : HTML, CSS 3, Bootstrap5, javascript

Role : UI developer

URL : <https://www.holidaymakerstravel.com/>

Description:

The HolidayMakers is a web based application. The main purpose of it is to provide a convenient way for a customer to book hotel, flight, train and bus for tour purposes. The objective of this project is to develop a system that automates the processes and activities of a travel agency. We will make an easier task of searching places and for booking train and flight or bus. In the present system a customer has to approach various agencies to find details of places and to book tickets. This often requires a lot of time and efforts.

Responsibilities:

- Gathered requirements directly from the client through meetings & mail communication.
- Analyzed the requirements to come up with overall Implementation & testing strategies.
- Received written testimonial from client.

Project # 2

Project : CAPIUM

Environment : HTML5, CSS3, Bootstrap5, Javascript

Role : UI Developer

URL : <https://www.capium.com/>

Description :

Capium is a cloud based accounting & practice management package which meets the daily demand of accounting practices. There is now no need for separate systems, as Capium allows you to run your whole business under one system. With our 6 key modules, we allow accountants to conduct all processes in a secure, Speedy and user-friendly manner.

Responsibilities:

- Gathered requirements directly from the client through meetings & mail communication.
- Analyzed the requirements to come up with overall Implementation & testing strategies.

- Received written testimonial from client.
